MAIN TANK BATTLE STILL RAGES ABOUT REZEGH

Force Jinks Anzacs

7 Months Of Siege Is Ended

CAIRO, Nov. 27.—(AP)—
The seven-month siege of
Tobruk, one of history's most
dramatic, appeared ended to-
day as the British command
announced a relief column
which had recaptured the
bloody battleground of Re-
zegh en route, had joined
hands this morning with the
Tobruk garrison.

New Zealand forces supported
by tanks smashed northward to
meet a column from the Tobruk
defenders, this morning, a com-
munique said.

The great tank and infantry
battle swirled through the 10th day
with both sides throwing in all
reserves. The main battle still ap-
parently was about Rezegh, 10
miles south of Tobruk, but was
spreading far to the east into Egypt
where the British routed a force
out of an Axis column which drove
across the frontier yesterday.

British, Australian and Polish
troops made up the Tobruk garri-
son.

Survivors Of H.M.S. Cossack Reach England

Glad to be alive—survivors of the British destroyer Cossack smile after their rescue. Other British warships picked them up from the rafts on which they escaped their stricken vessel. It was the Cossack that interrogated the German prison ship Almark and rescued British seamen in a Norwegian fjord, before the invasion of Norway by the Nazis. The vessel also played a major role in the Battle of Narvik, and served in more recent naval engagements.

HITCH IN NEGOTIATIONS

Vichy Resists Nazi Bid To Become Axis Partner

NEW YORK, Nov. 27.—
(AP)—Reliable reports
received in New York Wed-
nesday night suggested the
possibility of a hitch in Ger-
man-Vichy negotiations, with
Marshall Petain of Vichy
holding out against outright
membership in the Axis.

These reports, coming from
well-placed sources, seemed to
be supported by the failure
of leaders of the two
countries to meet the middle of
this week, as had been expected.

A hushed crowd of onlookers and
railway employees stood motionless
as the train left the station for
Quebec City for the state funeral
Saturday.

Tractor Driver Falls Asleep—Delays Plane

CALGARY, Nov. 27.—(CP)—Flying Officer R. O. L'Ami, press
liaison officer for No. 4 Training Command, arrived back in Cal-
gary this morning after an extensive trip in the north country,
and three days late because a tractor operator in Whitehorse, Y.T.,
went to sleep at the wrong time.

FO. L'Ami accompanied Robert
Casey, foreign correspondent for
the Chicago Daily News, on an
inspection trip in the north.
Mr. Casey went on to Alaska and
expected to return to the United
States by the west coast route.

The delay in FO. L'Ami's trip
occurred Sunday morning in White-
horse, just as he was about to board
a Yukon Southern plane to return
to Edmonton.

A workman at the airfield, who
was engaged in rolling down snow
on the field, went to sleep at the
controls of his large tractor. The
machine circled around the field
and then headed straight for
a hangar.

It crashed through the front of
the hangar, and then damaged
the tail of the plane that was to
take FO. L'Ami to Edmonton.

At that point, it is reported, the
tractor operator awoke and rapidly
made himself scarce. If the hangar
had not been there, the tractor
might easily have plunged over a
200-foot cliff. The damage to the
plane delayed the flight three days.

Axis Planes Used To Escort Convoys

LONDON, Nov. 27.—(CP)—The
air ministry news service said today
German and Italian commanders
are sending fighter planes as escorts
to motor convoys in an effort to pre-
vent them from R.A.P. bombings be-
tween Tripoli and the Libyan battle-
fields.

COURTESY ELIOT, Toronto, chair-
man of the board of directors of the
joint committee, has asked what
effect the caucus stand will have
on the government's attitude and
on continued talks. It was learned
that the cabinet was engaged in
study of the proposal for vacating
the income and corporation tax
reliefs by the province during the war.

300 Observers Posts Operating On Asia Frontier

RANGOON, Burma, Nov. 27.—
(AP)—A chain of 300 observation
stations now are operating from
Burma's Indian ocean coast to
northern and northeastern frontiers,
to give warning and protection
against possible air raids. Maj.
R. O. Taylor, commander of the
Observer Corps, said today.

Alaska Highway Is 'Impossible'

Pioneer States

Money and time spent on
building the Alaska Highway
would be entirely its useful-
ness. H. Wheeler, of Whitehorse,
resident of the north since
1897, stated in an interview
Wednesday.

Mr. Wheeler arrived in Edmon-
ton by Yukon Southern plane from
Whitehorse where he supervised
construction of a military air
base. This is one of a string of air
fields now being constructed be-
tween Edmonton and Alaska. Other
fields are at Grande Prairie, Fort
St. John, Nelson, Watson Lake, and
Prince George.

NORTH TRANSPORTATION
Two years ago Mr. Wheeler retired
from the presidency of the White
Pass and Yukon Route, a position
he held for most of his 44 years in
the north.

The White Pass and Yukon Route
is the connecting link between
Sledgeway and Whitehorse. Sledge-
way is the end of ocean navigation
in the north.

How Could U.S. Defend Alaska Against Attack?

That is the problem vital to
events in the United States and
Canada. Robert J. Casey, noted war
correspondent for the Chicago Daily
News and the Edmonton Bulletin,
is one of the Canadian north-
westers studying and reporting on
the joint defense setup in that
strategic area.

In a series of exclusive arti-
cles, the first of which will ap-
pear in The Bulletin Friday,
Nov. 28, Mr. Casey deals with
the problem of defense always
system linking Alaska with the
mainland.

Be sure and follow Mr. Casey's
series of colorful and informative
articles exclusively in the
Edmonton Bulletin

TRAIN DERAILED, DYNAMITE USED

New Series Of Terrorist
Attacks Reported In Paris

VICHY, France, Nov. 27.—
(AP)—French newspapers con-
trolled by the German occupiers
today a new series of terror-
ist attacks in occupied terri-
tory, including derailment of
a train near Abbeville and
dynamite attacks in the capi-
tal.

The disclosure was made in a
statement by Col. Gen. Ernst von
Schomberg, German commander
of the Paris region, who yesterday
announced the city had been fired
1,000 times from snipers. Maj.
R. O. Taylor, commander of the
Observer Corps, said today.

IN GONDAR REGION

Italians Refuse To Fight

NAIROBI, Kenya, Nov. 27.—(AP)—
British forces closing in on Gondar, where
the last Italian forces in Ethiopia are
hiding out, said today that after a point
seven miles southeast of Gondar was cap-
tured a brigade of Italian reserve troops
refused to obey an order issued by Col.

Torrelli, their commander, to counter-
attack.
A communique said a road west of
Gondar was hit by a hangar on an
Italian airfield set afire in an attack by
South African planes on buildings and
trenches near Gondar.

U.S. OUTLINES:

Ultimatum For Japs

Hero "Bobbie" In R.A.F.

WASHINGTON, Nov. 27.—
President Roosevelt, State
Secretary Cordell Hull and Japanese
envoys will meet this afternoon in an
afternoon of Hull's step last
night, putting the issue of
peace or war in the Pacific up
to the Japanese government.

Special importance was attach-
ed to the White House meeting
in view of the state department
announcement that basic Ameri-
can proposals for adjusting long-
standing problems with Japan
had been handed Admiral Nish-
ihara Nomura, Japanese am-
bassador, and Saburo Kurusu, the
special Japanese envoy.

The White House would give no
details as to the reasons underlying
today's conference.

Reports reaching authoritative
Washington quarters indicate that
Japan has been rapidly strength-
ening her forces in French Indo-China
within the past week. The reports
mentioned not only large troop
movements into northern and south-
ern Indo-China but also large ship-
ments of war materials of all kinds
including aviation gasoline.

Some of the reports held out a
possibility of a Japanese thrust
into the Pacific.

Russ Capital Is Faced With Fresh Threat

By The Canadian Press

German armies on the Mos-
cow front were reported to-
day to have staged fresh
thrusts to Moscow. The situation
of the Red army was said to have
been "aggravated" in past 24 hours in
the Volokovo sector, 30 miles
northwest of Moscow.

The Moscow newspaper Izvestia
said the Germans have forced an
attempt to build up numerical superiority
for their many-point offensive.
The German high command
claimed the Red army has lost heavy
equipment and personnel. The
Don, at the southern end of the
longest front, and has been
"frustrated" in a new attempt to
break out of the Leningrad siege
ring in the north.

ACKNOWLEDGE GAINS

Advising to Pravda, organ of the
Communist Party, acknowledged
the Germans had made new
gains toward Moscow. In this
they paralleled the Nazi war bul-
letin, which said the Germans
said there had been fresh gains
in the north.

EDEN REVEALS:

Nazis Shaping Up Peace Offensive

LONDON, Nov. 27.—(CP)—Foreign Secretary Anthony
Eden told the House of Commons today that Germany,
seeking a respite from the war in Russia, is shaping a peace
offensive through the expanded anti-communist pact.

He added that "whatever any-
one does about the new order
it will affect our policy not
just."

"Allied countries need have no
misgivings about the fact that
the German high command is
shaping a peace offensive through
the expanded anti-communist pact."

NATION'S MOST IMPORTANT PEOPLE

Strength of China Lies In Hearts Of Common Coolies

Wheels of Industry Are Kept Turning Steadily In War-Torn Orient City

This is the third of a series of six articles by Leland Stowe, giving his first impressions of Chungking—EDITOR.

By LELAND STOWE
CHUNGKING, Nov. 27.—(By Clipper)—(CDN)—When you've seen them you've seen the most important people in China. You can meet a dozen ministers and generals and maybe you'll only remember one or two, or maybe you'll have forgotten all of these titled gentlemen within a very few months. That has happened before, but you'll never be able to forget these other people. They're the biggest thing that has happened to China, and of course they don't know it.

Farm Products Exempted From Price Ceiling

OTTAWA, Nov. 27.—(CP)—The Wartime Prices and Trade Board announced Wednesday night that the general ceiling which goes into effect Dec. 1 will not apply to sales of a wide range of farm products and fish between the primary producer and the dealer or processor.

Retail price levels of these commodities are not affected and must not exceed the maximum prices in effect from Sept. 15 to Oct. 31, the base period, at major markets.

BOARD'S STATEMENT

A brief statement by the board said: "The ceiling order will not apply to livestock, poultry, eggs, milk, cream, dairy butter, farm-made cheese, honey, maple syrup, fish, when sold by the primary producer to dealers, processors or manufacturers. "If such products are sold by primary producers directly to consumers through public markets or otherwise, maximum prices which may be charged must not be higher than the maximum retail prices established during the basic period (Sept. 15 to Oct. 31) for the same products in the same area.

"The ceiling price order does apply in every particular to food products sold by dealers, processors, manufacturers, wholesalers and retailers, excepting fresh fruits and vegetables."

A summary of the order released simultaneously by the prices and trade board said the move is intended to maintain "stability in the transactions between primary producers and dealers or processors."

PRODUCERS PROTECTED

It was previously intimated by spokesmen for the board that such action would be taken that they said that it was anticipated sales would be taken to see that the interests of primary producers were protected from any efforts to force down the price paid for their products because of the price-ceiling on processed and manufactured goods.

Exemption of fresh fruits, vegetables and greenhouse products from the general price-ceiling was the public service duty ago.

Creanery butter and manufactured cheese are not affected by last night's announcement since they are manufactured by processors and all manufactured products are subject to the price-ceiling. However, milk sold by processors and manufacturers of butter and cheese will be exempt from the ceiling.

"Super-Corvettes" To Be Constructed

OTTAWA, Nov. 27.—(CP)—Negotiations for construction of "super-corvettes" in Pacific coast ship yards are quite far advanced and announcement of the signing of contract can be expected any time now, it was learned last night at the department of munitions and supply.

It was understood 12 or 16 of the new warcraft—bigger and faster than the corvette already built in the Dominion—will be ordered in the negotiations with British Columbia shipyards, and the value of the contract may run to about \$20,000,000.

Presumably the ships to be built in British Columbia are only part of the contracts which have been under negotiation for some time. Early this month Munitions Minister Stowe announced an expansion of Canada's wartime shipbuilding program with negotiations under way for construction of an additional 18 corvettes, 25 minesweepers, 100 trawlers and 50 merchant vessels.

The negotiations with British Columbia shipyards are quite far advanced, one munitions department official said.

The program at the coast involves signing of new contracts with shipbuilding firms which are now working at top speed for months on other government orders.

Death Occurs

FREDERICTON, Nov. 27.—(CP)—William Carman Roberts, 64, of Onawastie, Conn., and a member of Fredericton's famous literary family, has died of a heart attack, according to word received here Wednesday. Surviving are his widow and two brothers, Sir Charles G. D. Roberts of Toronto, and Theodore Goodridge.

BEATIN' THE BLITZ

—By Rick Elmes

Pool Insurance Profit For 12 Months \$82,062

CALGARY, Nov. 27.—(CP)—Canadian Pool Agencies Insurance, a subsidiary of the three prairie wheat pools, showed a profit for the year ending July 31, 1941, of \$82,062.15, delegates attending the second day of the Alberta Wheat Pool convention were told Wednesday afternoon.

ELEVATOR EARNINGS

D. A. Kane, general manager of the Manitoba Pool Elevators, presented a report of the joint operations of the Alberta and Manitoba Pool Elevators' four terminals at Port Arthur. Net earnings averaged around one and one-third cents a bushel. He said the new 6,000,000 bushel temporary terminal storage built by the two pools at Port Arthur had over 3,000,000 bushels of grain in store.

Very little damage has been done by mice in the grain during the season. Various methods are used to combat them, but mainly a poison gas. Mr. Kane reported.

W. A. Mueled, superintendent of public works for the Canadian Wheat Pool, also addressed the convention. He said: "The time is ripe for an agricultural power in Canada, one that would give better returns to agriculture. There can be little hope for real prosperity and progress unless agriculture is given treatment at least equal to those granted to other classes."

The convention continues today.

Car Service Reduced

LONDON, Nov. 27.—(CP)—Restaurant and sleeping cars were substantially reduced on long distance trains Wednesday because of increased production of munitions use of coal and the sending of a human grandeur as the Volga Boat Song. There is only a rapid line of music in it something that is halfway between a poem and a song. But whatever the great load of coal and the sending of a human grandeur as the Volga Boat Song.

The art is loaded with great

bags of cement. It is a human grandeur as the Volga Boat Song. There is only a rapid line of music in it something that is halfway between a poem and a song. But whatever the great load of coal and the sending of a human grandeur as the Volga Boat Song.

C.P.R. Engineer

Has Perfect Run

CALGARY, Nov. 27.—(CP)—Edwin Bill Nevin brought 50 years, four months and six days of engineering to an end when he wheeled Chinook engine No. 3001 to a stop at the Canadian Pacific Railway depot Wednesday afternoon, with not a single wheel, not even a minor derailment in the black box against him.

The report, read by H. M. Dunsen, manager of the agency, said the Alberta's pool share of this profit was \$20,627, while the Saskatchewan Wheat Pool's share is \$40,000.46 and the Manitoba Wheat Pools share \$12,373.14.

He was on July 31, 1891, that Bill Nevin signed on at Lethbridge as a helper for the C.P.R. In September, 1927, he was promoted to fireman, and was moved to Camrose in 1932. He came to Calgary to make his

permanent home 43 years ago, and has, for the past five years, been engineer on the Coronation run. The last firing he did was on the Royal Canadian train bearing King George V and Queen Mary, the Duke and Duchess of York.

Col. Geo. McCarter, R.C.A., is promoted to Brigadier Rank.

OTTAWA, Nov. 27.—(CP)—Col. George Arnold McCarter of the Royal Canadian Artillery has been promoted to rank of brigadier and appointed to command of an anti-aircraft brigade overseas, it was announced last night at national defence headquarters.

Brig. McCarter, 45, was born at Calgary and educated at Revel-

stoke, B.C., Port Hope, Ont., and was a major in the permanent R.C.A., and in December, 1939, was appointed a general staff officer, grade 1, at national defence headquarters with the rank of colonel. He went overseas at the end of 1940.

How Could America Defend Alaska Against Attack?

Watch for the Answer in a Series of On-the-Spot Articles by

ROBERT J. CASEY

Travelling by Royal Canadian Air Force Bomber and Yukon Southern Air Transport—through special arrangement with the Canadian government—noted war correspondent Robert J. Casey has made the first flight by any American newspaperman over the new defence airways system linking Alaska with the United States.

This northern wilderness boasts no highways or railroads—provides no means for quickly transporting men and supplies, except by air. Previous to Bob Casey's current coverage, the new bases had been thoroughly surveyed only by Canadian authorities and members of the international commission.

These newly established air bases—set up under the auspices of the Joint Canadian-American Defence Commission, headed by Fiorenzo La Guardia—are located in the heart of the Canadian northwest. Like a life line, they connect Alaskan bases with the principal industrial and military centers of the United States and Canada.

Casey travelled over part of the route—Calgary to Edmonton—in a Royal Canadian Air Force Bomber, put at his disposal by Canadian authorities. He covered the system from Edmonton to Fairbanks, Alaska, via Yukon Southern Air Transport, also by arrangement with Canadian authorities.

Why are these bases vital?

Because, in the event of a sudden emergency requiring the U.S. to defend Alaska against attack, this chain of bases would make possible big-scale transportation of men, goods and supplies by air, to greatly strengthen Alaskan forces.

While in Alaska, Correspondent Casey—who returned to America this summer after two years of uninterrupted war coverage—will study and report the defence setup in that strategic Pacific area.

Watch for Bob Casey's revealing dispatches from Alaska...

Starting Friday, November 28th

EDMONTON'S HOME NEWSPAPER

Alberta District News In Brief

Badminton Club Names Officers

FAIRVIEW—Badminton Club organized for the present season in the Gen theatre Sunday with 31 members present. Badminton will be played in the theatre at 7 p.m. Monday, Wednesday and Sunday nights and 2 p.m. Sunday afternoon. Members of the executive are: Harry Rubel, president; Mrs. H. L. Walker, vice-president; Mrs. Rubel, secretary-treasurer.

INDUCTION TRIPS

Induction services were held at St. Helena's Anglican church Sunday for Rev. George Pattison, B.A. Bishop Suffragan, Alberta diocese, confided the services. Rev. Mr. Pattison was ordained to the priesthood at St. James' Cathedral, Peace River, by Bishop Sovereign on November 5.

Early Travellers Had Discomforts And Fun

Journey Between Edmonton and Calgary Was Not a Bed of Roses But Pioneers Still Remember Pleasant Trips

By ANNIE L. GARTZ
Exclusive To The Edmonton Bulletin

Travellers today are generally assured of comfortable sleeping quarters in any direction their travels may lead. A few old pioneers still remember difficulties and discomforts of travel back in the '80s, when making a trip from Edmonton to Calgary.

Sleeping quarters were few and far between. Those were log houses, with few comforts and many discomforts. They usually consisted of a large kitchen and dining room combined, and a large sleeping room. The only accommodation in the sleeping room was a bunk, wooden benches fastened to the wall, sometimes one above the other. These were filled with hay or straw, and travellers, by preference, carried their own blankets.

If you arrived before the bunk were all taken, you placed your belongings in a bunk, which secured it for you. If you were too late to secure a bunk, you pulled out a plate on the floor where the bunk seemed less prominent and rolled up in your blankets there. There was no separate accommodation for women. If perchance you were an early start, or valued to be "hot trail" at an early hour, you made your preparations quickly and packed your gear before the weary sleepers on the floor.

Some houses were usually run by technicians, very efficient, Englishmen, unskilled in the art of house-keeping, or in the kitchen arts. Nevertheless, the kitcheners soon learned to make a light hammock or light bed. What was lacking in comfort was made up in hospitality, and a warm welcome always awaited the man of the trail, regardless of creed or color. The same invitation was given to all "hang your hat behind the door and set in." For breakfast the meal consisted of coffee, baked black flap-jacks and fried "rattle snake" brown or soft belly. Sometimes travellers were invited to "roll in" as soon as supper was over; others sat around the fire, awaiting yarn, exchanging experiences or enjoying a game of poker. Men, who perhaps were located many miles from the nearest neighbor, enjoyed the opportunity of mixing with others of his kind.

Nearly all the houses have disappeared, swept away by a prairie fire or replaced by a more up-to-date house. But to the real old timer, the memory of jolly evenings is like a link with the past.

Plans Made For Santa Claus To Visit Lacombe

LACOMBE—As a result of a meeting called by the Board of Trade, Santa Claus will be invited to visit Lacombe, and committees are at work on plans for his reception. He will be installed in premises erected for him and will greet kiddies of the district. C. D. Williamson, president of the Board of Trade, was named by those at the meeting to be chairman in charge of the scheme.

Mrs. Jack Morrison has been appointed to the staff of the school and will teach the class formerly in charge of Miss Blanche Nelson. Miss Nelson will take over the class which had been in charge of Gordon K. Hagison, who was recently called up by the R.C.M.P. as a player 1 instructor. He has left for Toronto.

Services Held For Berwyn Old-Timer

BERWYN—Resident of the Kerndale district since 1914, Anna Berwyn passed away suddenly November 12, following a heart attack. The funeral was held from the Russell Memorial United Church, Berwyn, with many friends present to pay their last respects. The service was conducted by Rev. Geo. H. Johnston, with interment in the Berwyn cemetery. Pallbearers were W. F. Gilliland, L. Larson, W. G. Quinlan, J. Bagley, J. V. Meyer and F. Rouger. A. M. Field, Peace River, was in charge of the funeral arrangements.

Surviving are her husband, four daughters, Mrs. Anna Berwyn, Berwyn; Eugene and Anna at home; Michael at Lacombe; Walter in Browardale; and L. L. Jensen with the C.A.R.P. in Calgary; and two brothers, Ben and Tom. She was born in Edmonton 22nd Erie, Prout, U.S.A., respectively.

BAWL SKETCHES

By Will Danch

"I'll have to get Leone Reid, the music instructor's advice. It does this every time I play 'smoke gets in your eyes'."

Poland Will Rise Once Again Singer States On City Visit

A volunteer with the Polish army in the present war, Jan Kiepura, famous Metropolitan opera star, who gave a recital in Edmonton Wednesday night, told newsmen here: "Poland will rise again."

"And how!" he declared. "If everything was as certain as that life would be wonderful!" Poland, he declared, had been wiped out before and had risen again, and that it would do the same thing once more. "Poland was, it is now, and it will continue," he said.

'YOU CAN SING BETTER'

Talking about Poland and his services in France with the Polish volunteer forces, Mr. Kiepura stated that he only lasted for three or four weeks, and that then his general told him there were enough Polish soldiers who could shoot and as for Kiepura, "you can sing better than you can shoot."

So Mr. Kiepura came to this continent to give benefit performances in aid of the Polish relief fund, and to date has raised \$100,000.

The reporters who "storied" him when Wednesday found him in an evening quite different from the distinguished costume he has worn in his operatic roles. Mr. Kiepura wore a natty outfit comprising orange silk pajamas, a dressing gown in orange-berber shade, black wool socks and lambskin bedroom slippers. As he said, "only you can sing better."

A. W. Miller, Edmonton barrister and counsel for the appellant, submitted that the evidence against the accused at the trial in the lower court was that of an accomplice. He said the trial judge had stated in his judgment that he did not believe the evidence of this witness on many vital points, but had accepted his evidence in respect to the accused's participation in the arson.

The evidence accepted by the court, Mr. Miller pointed out, was not corroborated, and contended that, in the special circumstances of disbelief in part of the witness' evidence, that strong corroboration should have been necessary before acceptance of the evidence of the witness. Dricki was charged with setting fire to his garage at Two Hills on August 30 last. The fire was brought under control quickly by a volunteer fire brigade.

Men Must Have Right Of Free Spiritual Life

To decide his own relation to God without interference or control from any quarter is the inalienable right of man, declared Rev. E. Paul, R.D., president of the Baptist Union of Western Canada, in a public address given in First Baptist church on Wednesday evening.

Dr. Paul, who is minister of First Baptist church in Vancouver, spoke in the city during the course of his annual visit to the prairie provinces.

"The first principle set forth in the gospel is the liberty of the soul, and if a man is to be responsible before God, he must be free," the speaker said.

SHAME FAITH
Baptists share in the evangelical faith common to millions of Christians around the world, and the Christian message which offers to men a new life, through a living, personal experience with Jesus Christ, he pointed out.

"It also offers a great social hope, applying the will of God to every human relationship in social, economic, political and international life," he said.

"Spiritual tyranny in any form is a degradation of human personality, and no church, or state, or system has any right to compel a man and his God. The recovery of real freedom in any part of human life, social or personal, awaits the revival of this vital, indispensable Christian truth of liberty of conscience."

Poultrymen Must Obtain Licenses

Warning that all persons required to operate under license in various fields of the poultry industry must be in possession of current licenses on December 1, was issued by the poultry branch, Alberta Department of Agriculture, today.

It was pointed out that revised regulations under the Alberta Live Stock Act call for licenses which expire on December 31 of this year, and that new licenses will be required for operations in 1942, commencing January 1. Previously the license year expired March 31.

All licenses were not ready for issuing on April 1 last under the former regulations, many who applied for licenses were granted written permits to carry on. All such permits become null and void on December 1, 1941, and after that date may no longer be shown to inspectors or constables of the R.C.M.P. as authority to deal in or to truck poultry products," said C. W. Traves, poultry commissioner.

John C. Skinner, Edmonton Pioneer, Buried Wednesday

Funeral services were held Wednesday afternoon for John C. Skinner, 92, of 1034 85 street, pioneer resident of Edmonton, who died Saturday following a brief illness.

The services were conducted by Rev. Harold Silbards from Foster & McCarver's funeral chapel. Interment was made in the family plot in the Beechmont cemetery. Pallbearers were Joseph Reid, Harold Banks, Charles Dixon, J. C. Wilson, S. W. Worthing and Stuart Anderson.

Mr. Skinner had resided in Edmonton for the past 27 years and had been in Canada for more than 70 years. He was born in Denver, Scotland, and was a builder by trade.

Manchukuo has a ban on child marriages.

THREE TO HOLD MEETINGS IN CITY

Four Provincial Political Parties To Shape Plans

Liberal, Conservative

C.C.F. Parleys Planned:
Social Credit In South

Four provincial political parties will hold meetings to lay plans for their future activities within the next few days.

In Aerial Sortie

Former constable of the Edmonton city police force and well known in athletic circles here, P.O. George C. H. Jackson, above, has distinguished himself in an "operational sortie" with new aircraft equipment over the coast of occupied France.

Annual meeting of the Edmonton Conservative Association will be held in the basement of the Agency Building at 10 p.m. Thursday (tonight) with K. H. Tabor, K.C., president of the organization, in the chair.

H. H. Milne, K.C., past president of the organization, who attended the recent Dominion council meeting, will address the meeting. Mr. Tabor and A. L. Burrows, who also attended the conference, are expected to report to the meeting.

C.C.F. MEETING
William Irvine, C.C.F. organizer for the province, will be guest speaker at a meeting of supporters of the C.C.F. in the I.O.O.F. Hall, 101 street, Thursday night (tonight). Mr. Irvine will speak on the topic, "Our Policy For The Future." He is expected to discuss the political situation. Next Saturday the provincial council of the C.C.F. party will hold a meeting in Red Deer.

A meeting of the full executive of the Edmonton Provincial Liberal Association and other members will be held at 10 p.m. Thursday, according to a press statement issued by J. Hay McNeill, K.C., president of the association.

Business of the party in the province will be discussed at the meeting. On Wednesday and Thursday of next week, the annual convention of the Social Credit Party will be held at Calgary.

Plans are also underway for an early meeting of the general assembly of the newly formed Independent Citizens' Association of Alberta, whose organization plans will be formulated.

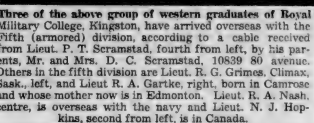

Civic Employees Deliver Protest

Executive of the Edmonton Civic Employees' Federation, the very lively body for civic employees, has registered protest with the city council against any change in the principle governing retirement for civic employees. This action was taken by the executive following a discussion held by individual unions covering a proposed extension of the retirement age of civic employees as a war measure.

This proposal, made by Mayor John W. Fry, and sponsored by Ald. George C. H. Jackson, was that civic employees reaching the retirement age could be continued in the city service beyond that period if, in the opinion of the city council, they were capable of rendering efficient service.

The proposal was sponsored by Ald. George C. H. Jackson, who said that such extension during the war period would make paying for the Canadian service force more difficult. He said that such extension, it was stressed by the sponsor, would only be for the war period. At the termination of the war, the extension would have to be withdrawn.

The proposal is now before the bylaws committee of the city council.

Unique Symbol Of Victory Is

Bobby Eggen Receives "V" Scar In Fall

Carried By Two-Year-Old Boy

Serves Overseas

Many and varied have been the signs and symbols that have come to light during the recent "V" for Victory campaign in all the countries battling Nazi Germany. Edmonton has contributed to this share and there have been some really remarkable symbols.

But it remained for little Bobby Eggen, 2½, of 11509 St. street, to play the role of a small soldier in the front of the "V" campaign. Bobby is the son of Mr. and Mrs. J. Leslie Arnett, 10294 123 street, who has arrived safely in Britain according to a cable received by his parents here. The officer was granted his commission last spring. He was born in Edmonton and received his education at Westmount public and high schools, and the Ojima School of Agriculture.

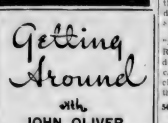

Eaton Company Increases Bonus

The T. Eaton Co. Ltd., announces a further increase in the cost-of-living bonus for its employees. Inaugurated at the beginning of the year, the bonus was originally 5 percent on basic wages. It is now being paid to all employees earning less than \$6 per week, and to all men employees under 21 years of age earning less than 50 cents per hour. To other employees, it is otherwise provided, a bonus of \$2.50 per week was paid. On August 1 this was increased from 5 to 10 percent.

The new plan as outlined provides for a bonus of 14.8 percent, as established by the government cost-of-living index for October, which will apply as formerly to all women and to men under 21 years of age earning less than 50 cents per hour. To all other employees, it is otherwise provided, a bonus of \$2.50 per week is paid. The increase will be dated back to the first pay day following Nov. 15. The bonus is also to be paid to those on the retired list now receiving a retiring allowance. It is likewise to be paid to married men on the retired list who are single men with dependents who qualify for separation allowance.

Capt. John Freeman, Calgary, district officer of Military District 13, was in Edmonton on Thursday. He spent the day in making a report to the office of the Edmonton Garrison, and in making a report to the Garrison School, which is being taken by a large number of R.C.M.C. and other ranks from reserve units.

Getting Around

With JOHN OLIVER

At first glance, one would hardly come to a realization that there is any very close relationship between the beauty industry and vital war production. It seems a far cry from munitions to cosmetics, but the disparity is not so great. In fact there is no disparity. They are interlocked. Many of the ingredients required in the manufacture of the things that contribute to the beauty of women also go into the things that make men and civilization ugly and hideous.

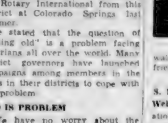

In view of the fact that vital war production is carried on in the creation of the available commodities, it is not surprising that the industry has been unusually busy. The war has not only brought about a new era in the beauty industry, but it has also brought about a new era in the industry of the things that make men and civilization ugly and hideous.

The chemists are replacing essential oil derived from flowers with high grade French perfume. They are discovering why they have plenty of "pomp" of their own.

\$22,000 Building Permits Issued
Building permits totaling \$22,000 have been taken out since the beginning of this week covering additions to two industrial plants and the erection of new homes.

The McCabe Bros. Grain Co. has taken out a permit for \$10,000 for warehouse and office additions to their clearing mill plant at 12506 St. road.

A permit for \$10,000 was taken out by the Alberta Dairy Pool for a 46,000 one-story addition to their plant at 10851 101 street.

I Saw Today

Discussed Here By Rotary Head

"What are the Rotarians going to do about the age problem?" was the question that John H. Abbott, North Battleford, governor of Rotary district No. 116, which includes the three prairie provinces and the Great Lakes area, placed before the Edmonton Rotarians at their luncheon in the Madonnal hotel, Thursday morning.

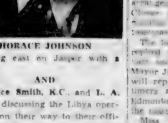

Mr. Abbott arrived here by auto in the course of a tour that will take him to several Rotary centers in Alberta. He was escorted to the Rotary International from the district at Colorado Springs last summer.

He stated that the question of "feeling old" is a problem facing Rotarians all over the world. Many district governors have launched campaigns among members in the hope that the districts to cope with the problem.

50-60 IN PROBLEM
"We have no worry about the men over 60," he said. "They are as spry and active in Rotary work as the boys. The ones living most actively are the ones between 50 and 60."

People grow old by perceiving their ideals and not by doing their work, he said.

Mr. Abbott then turned to the more serious phase of his message by outlining to the members the latest conference on the subject. The primary aim of Rotary is to improve the world by service. It is to improve the world by service. It is to improve the world by service.

Pioneers Will Celebrate At Banquet, Dance

One of the most popular social events of the winter season, the annual "round up" of members and friends of the Northern Alberta Pioneer Association, will be held at the Madonnal hotel, Thursday evening.

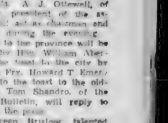

Over 600 people are expected to attend the affair, which will be in the form of a banquet and dance. J. A. McNeill, secretary of the association, is in charge of the entertainment. A. J. Gilmore, of Chicago, past president of the association, will act as chairman and emcee during the evening.

The banquet will be held at the Madonnal hotel, Thursday evening. The dance will be held at the Madonnal hotel, Thursday evening. The dance will be held at the Madonnal hotel, Thursday evening.

Age-Old Miracle Is Again Needed

For Human Fellowship, Says Bishop

"The age-old miracle of grace must be performed, so that people—disappointed, embittered, lonely people—will find fellowship such as they can find in this world. This is the miracle of the Christian faith. This is the miracle of the Christian faith. This is the miracle of the Christian faith."

The bishop spoke at a diocesan service of missionary witness, held at the St. James' Anglican church, Wednesday evening. He was then by Rev. Canon A. M. Trevelyan, rector of the cathedral church.

"It is missionary money, he said, that is the lifeblood of the church. It is missionary money that is the lifeblood of the church. It is missionary money that is the lifeblood of the church."

The bishop spoke at a diocesan service of missionary witness, held at the St. James' Anglican church, Wednesday evening. He was then by Rev. Canon A. M. Trevelyan, rector of the cathedral church.

"It is missionary money, he said, that is the lifeblood of the church. It is missionary money that is the lifeblood of the church. It is missionary money that is the lifeblood of the church."

The bishop spoke at a diocesan service of missionary witness, held at the St. James' Anglican church, Wednesday evening. He was then by Rev. Canon A. M. Trevelyan, rector of the cathedral church.

from the dinner, for Dr. Wissler credits origin to Arabia and now it mostly comes from Brazil. Cranberries, without which no Christmas dinner is complete, early were known around the Arctic Circle.

Britain Implementing Promise To Soviet Ally... Battleship Malaya Steams Back To Battle

Scores of British tanks await loading at un-named English port, as Great Britain fulfills her promise to extend all-out aid to heroic Russian forces on the Eastern Front. Flow of American lend-lease supplies has enabled England to aid her Red ally.

Actress Virginia Bruce of the movies team with a new star, her 11-weeks-old son, Christopher Briggs Ruben, making his camera debut in this picture.

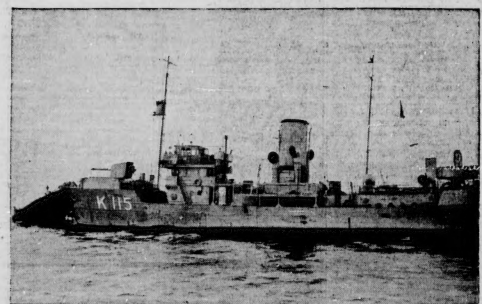

The Statue of Liberty, background, seems to be waving Godspeed as H.M.S. Malaya steams slowly out of New York harbor to return to action with the Royal Navy. The huge British Battleship, scarred at sea, limped into New York several months ago, was repaired and refitted, with American aid.

Administrator

Robt. F. Chisholm, who has been appointed Administrator of the Wholesale Trade for the Wartime Prices and Trade Board. Mr. Chisholm is sales manager of Gordon Mackay & Company, Limited, of Toronto. His duties will include the general supervision of the whole field of wholesale trade throughout the Dominion.

Farewell To Levis!

These photographs, just released by the Royal Canadian Navy, tell the story of the ill-fated corvette H.M. C.S. Levis, which was torpedoed and sunk with a loss of 18 lives some weeks ago. They were taken by an officer aboard another vessel. In the upper photo the Levis is shown as she wallowed in the sea, after the torpedo struck her in the fore-castle. An attempt was made to tow her into port, but after several hours it was necessary to abandon her. In the lower picture the Levis is shown as she settles into the sea while a sailor watches from the deck of another vessel. Inset shows a boat load of survivors from the gallant little ship as they rowed up to the rescue vessel.

"Gets His Gal"

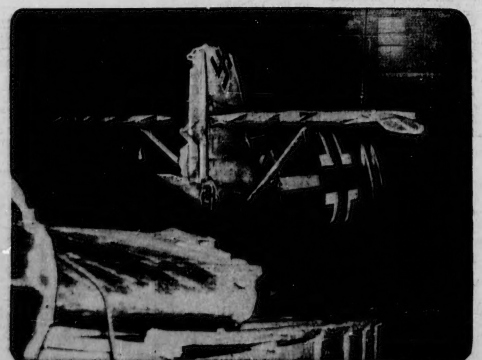

Roy Allen, of the Royal Canadian Mounted Police, proves he not only can "get his man," but his woman as well. He's embracing bride, former Nancy Maurice, dancer.

Resigns

Philip Murray, president of the C.I.O., is pictured in his offices in Washington after resigning from the national defence mediation board. His action was a protest against the agency's refusal to sponsor a "union shop" contract in the steel companies' "captive" coal mines.

Proof Positive Of R.A.F. Prowess

Chief attraction at an exhibition sponsored by the British government in aid of the Queen's Canadian Fund will be this Nazi plane, a Messerschmitt, one of the hundreds brought down over England. The exhibition to last two weeks will open to the public in Montreal. Workmen here are pictured hoisting machine up the side of the building.

A New Niece

Uncle Sam gets a pretty addition to his vast family as actress Maureen O'Hara takes out first papers in Los Angeles. Born in Ireland, Miss O'Hara decided to "adopt" the Stars and Stripes as her very own.

U.S. House Passes Neutrality Revision Bill

Speaker of the U.S. House, Sam Rayburn signs the administration bill revising the Neutrality Act and authorizing American ships to sail anywhere in the world under the protection of their own flag and guns. Gathered about the Rostrum of the House, and looking on, are, left to right, Representatives Patrick Boland, Democratic whip; John McCormack, majority leader; Howard Smith, and Landis Sasser. The last two lead the revolt of Democrats against the measure.

Italians Surrender

When the Italian force surrendered to the British at Walcheft Pass, 80 miles north of Gondar in Italian East Africa, a traditional ceremony was observed. Headed by the Italian flag (not shown) the soldiers marched down the pass from their positions, past the saluting base where Brig. W. A. L. James stood and then surrendered their arms a mile from the base. The guard of honor was composed of men from the King's African Rifles.

Romance In Bud

A Yank boy meet a British gal. Unseen in background the little guy with the bow and arrow lets fly. It's a bull's-eye and the romance is on. The boy, Robert A. Ames, of Ulitz, N.Y., who is listed as No. 1 in the civilian technical training corps. He came from the U.S. to work in Britain on radio locators and was first American accepted. His great-grandfather, Cornelius Whitehead, was aboard Nelson's flagship, H.M.S. Victory, at Trafalgar. The gal, Norah "Mickey" McMullen, who works in the postoffice at Bournemouth. She met Bob when he called for his mail. She's autographing his gas mask here.
